Description

After teaching at a public elementary school for six years and acting as Executive Director of a preschool in Auburn, IN, Kelly found her passion for working with people leading her to serve the community in a different capacity. As a former educator, Kelly's mission is to create a comfortable, well-informed environment for each client. She is hard-working and excited to help educate the community on the buying and selling of property. Because she is a proponent of proactive communication, Kelly strives to make each real estate transaction well understood by clients, so whether you are buying or selling real estate for personal or investment reasons, Kelly's goal is to help you close the transaction with ease.
