Description

Paint Protection Film and Ceramic Coatings for Automobiles at Praxis Detailing of Fort Wayne, Indiana

Paint Protection Film (PPF)

Wrap the exterior of your automobile in SunTek's self-healing technology! Here at Praxis Detailing of Fort Wayne, Indiana, our automotive paint protection films provided by our trained installation team will deflect scratches and nicks along with preventing oxidation or swirl marks from creating a hazy, lackluster effect across your clear coat. There is no better choice in surface defense than our clear bras!

Ceramic Coating

Bring out a beautiful, glossy shine on your vehicle with our ceramic coating packages here at Praxis Detailing! Starting with our renowned auto detailing service to prep your finish, our ceramic coating installation crew offers customers four distinct, high-performance paint protection packages that feature the latest in technology.

Window Tinting

Carbon and ceramic window tint films from Praxis Detailing can not only benefit your vehicle's exterior aesthetic appearance, they bring a temperature-controlled environment to your interior while securing it from passersby! Our window tint film installation crew here in Fort Wayne, Indiana has certifications in both carbon and ceramic SolarFX Window Tint Film product installation.

Auto Detailing

All throughout the year here in Fort Wayne, Indiana, your automobile needs to be cleaned, enhanced, and refreshed. Don't force yourself to choose between a stain-free interior or glowing exterior - At Praxis Detailing, we have affordable auto detailing packages that do both!
